

Day 12 - Biology - 9-10-24 to 9-11-24

HOMEWORK - Ecosystems & Communities

On Schoology - Submit immediately after completing.

Difference Between Biome and Ecosystem

	
Biome	Ecosystem
Biome is a large area of land or water or both governed by similar climatic conditions.	An ecosystem is an ecological organization in which biotic and abiotic communities or entities interact.

1) Complete the **Outline/Read** assignment

2) Complete the **Video Notes**.

Submit on Schoology as soon as complete.
